# Sexual Assault Survivor Statistics

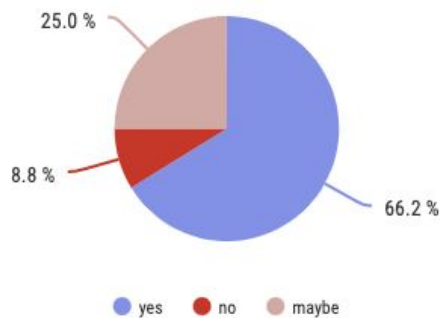

We asked sexual assault survivors if they trust the police. Here are the results:

## 67.8% of survivors

said they would use an at home sexual assault kit if available.

**Would you feel like you had more autonomy over your body as a sexual assault survivor if you could perform a sexual assault evidence kit on yourself?**

**Every 73 seconds, an American is sexually assaulted.**

**Now survivors can feel more comfortable reporting their assault, with an at home sexual assault kit.**

More sample infographics:

**73% of Sexual Assault  
Survivors are Women**

**51%**

**of African American sexual  
assault survivors  
feel they don't trust police.**
